PUT YOUR

Family

ON IT.

Every board locks in from the edge, held by hidden clips below.
Not one screw left up top to catch a bare foot.

THE INVISICLIP™ HIDDEN FASTENER SYSTEM

A rail system, not a screw.

Hidden clips snap to aluminum rails on every joist. Grooved boards drop in from above, and GRAD keys lift any board out later.

POWERED BY GRAD SYSTEM

Prefer side clips? Starborn is our official clip, and most side clips work too.

THE TRUEGRAIN PALETTE

Six hardwood-inspired colors. One that is already yours.
