CELLULAR PVC DECKING

THE COLOR & COMFORT ISSUE

The 2026 *Lookbook*

The deck your family will actually live on.

REAL WOOD BEAUTY.
NONE OF THE WOOD CHORES.

*Made in America. Made to be walked on
barefoot, all summer long.*

So your weekends can go back to being weekends.

A photograph of an outdoor deck at night. In the foreground, a long wooden dining table is set with plates, glasses, and candles. Behind it, a fire pit with a fire is surrounded by a sofa and armchairs. String lights hang across the deck, and a small tree is on the left. The deck is made of wood.

THE SUMMERS ARE SHORT. SPEND THEM OUT HERE.

Feel-real grain plus no-maintenance durability.

Backed by our 25-year Limited Residential Warranty, and by the family that has been making it in New Jersey since 1971.

Royal IPE

DEEP MAHOGANY AMBER

*A deep, sun warmed mahogany
that turns an evening on the
deck into something you
remember all winter.*

Coastal Driftwood

SOFT WEATHERED GREY

*Silvered like the pilings
along the bay, softened by
salt air and slow, easy
afternoons.*

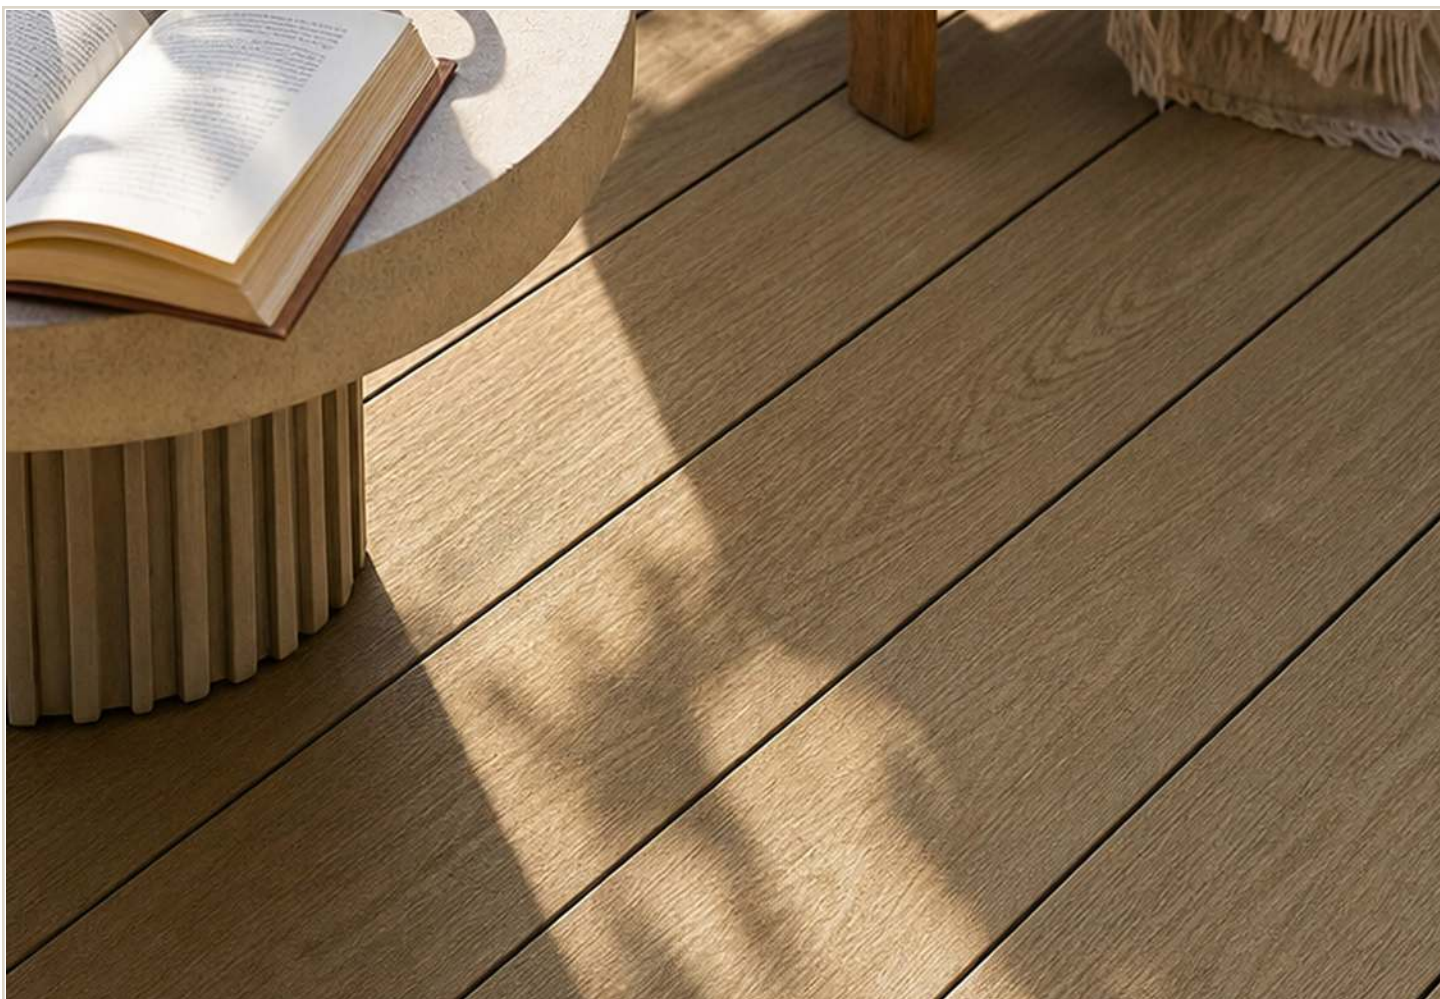

New England Birch

WEATHERED SILVER GREY

*Cool and coastal, the grey of
a shingled cottage that has
watched a hundred summers
come and go.*

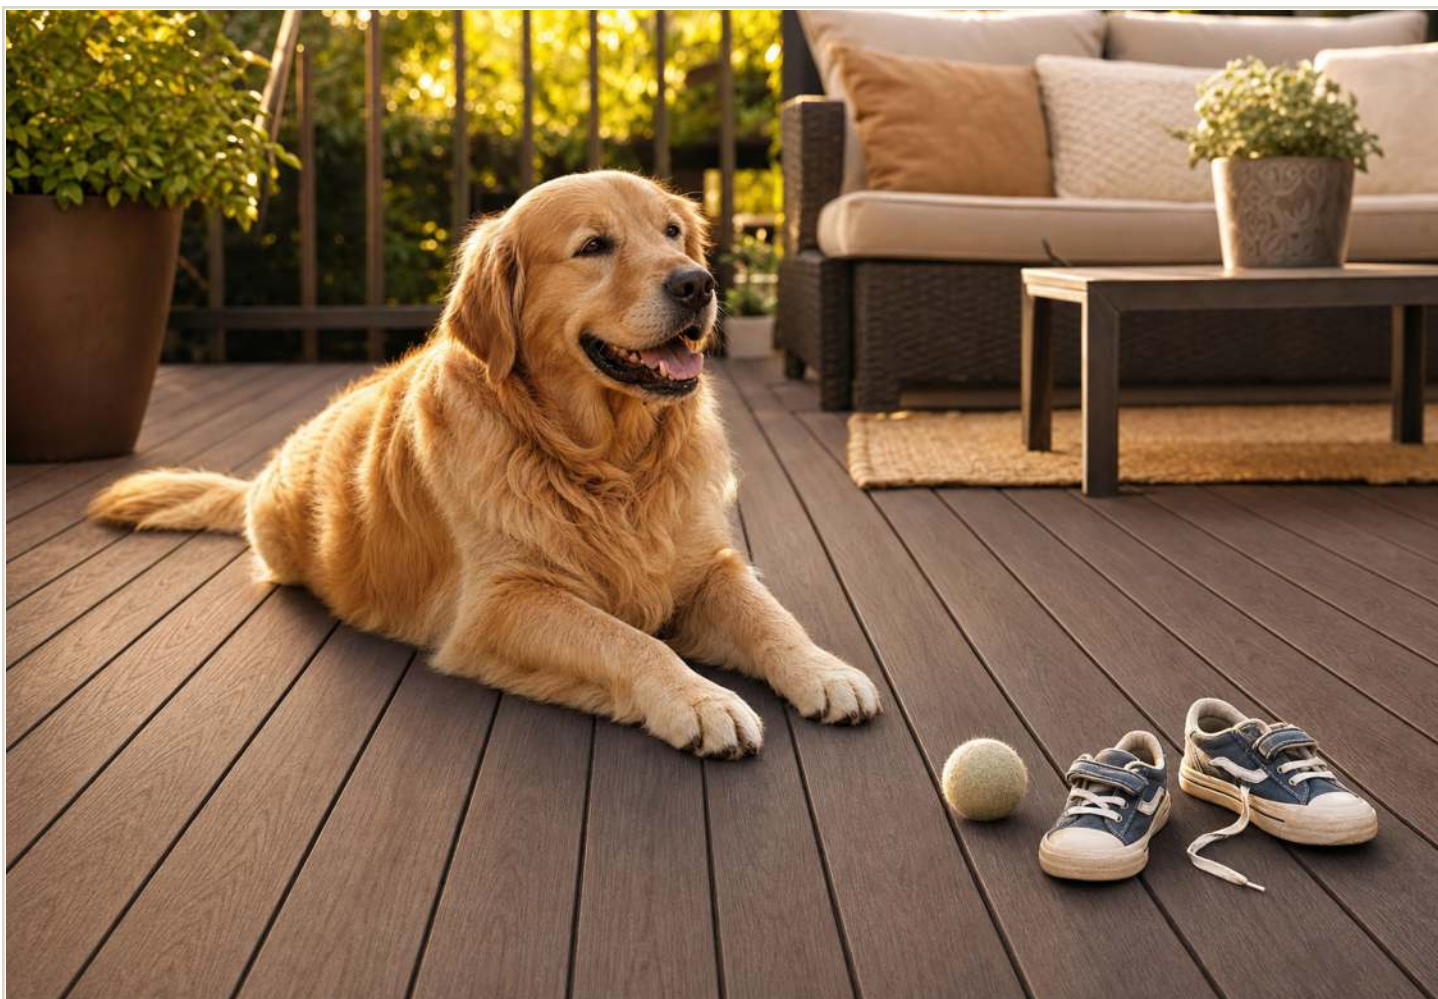

Aged Oak

GOLDEN TAN, OPEN GRAIN

*An easy golden tan with real
open grain underfoot. The one
that feels like it has always
been there.*

Embered Taupe

WARM SMOKY BROWN

Warm and smoky as embers at dusk. The color of a fire pit that no one wants to leave.

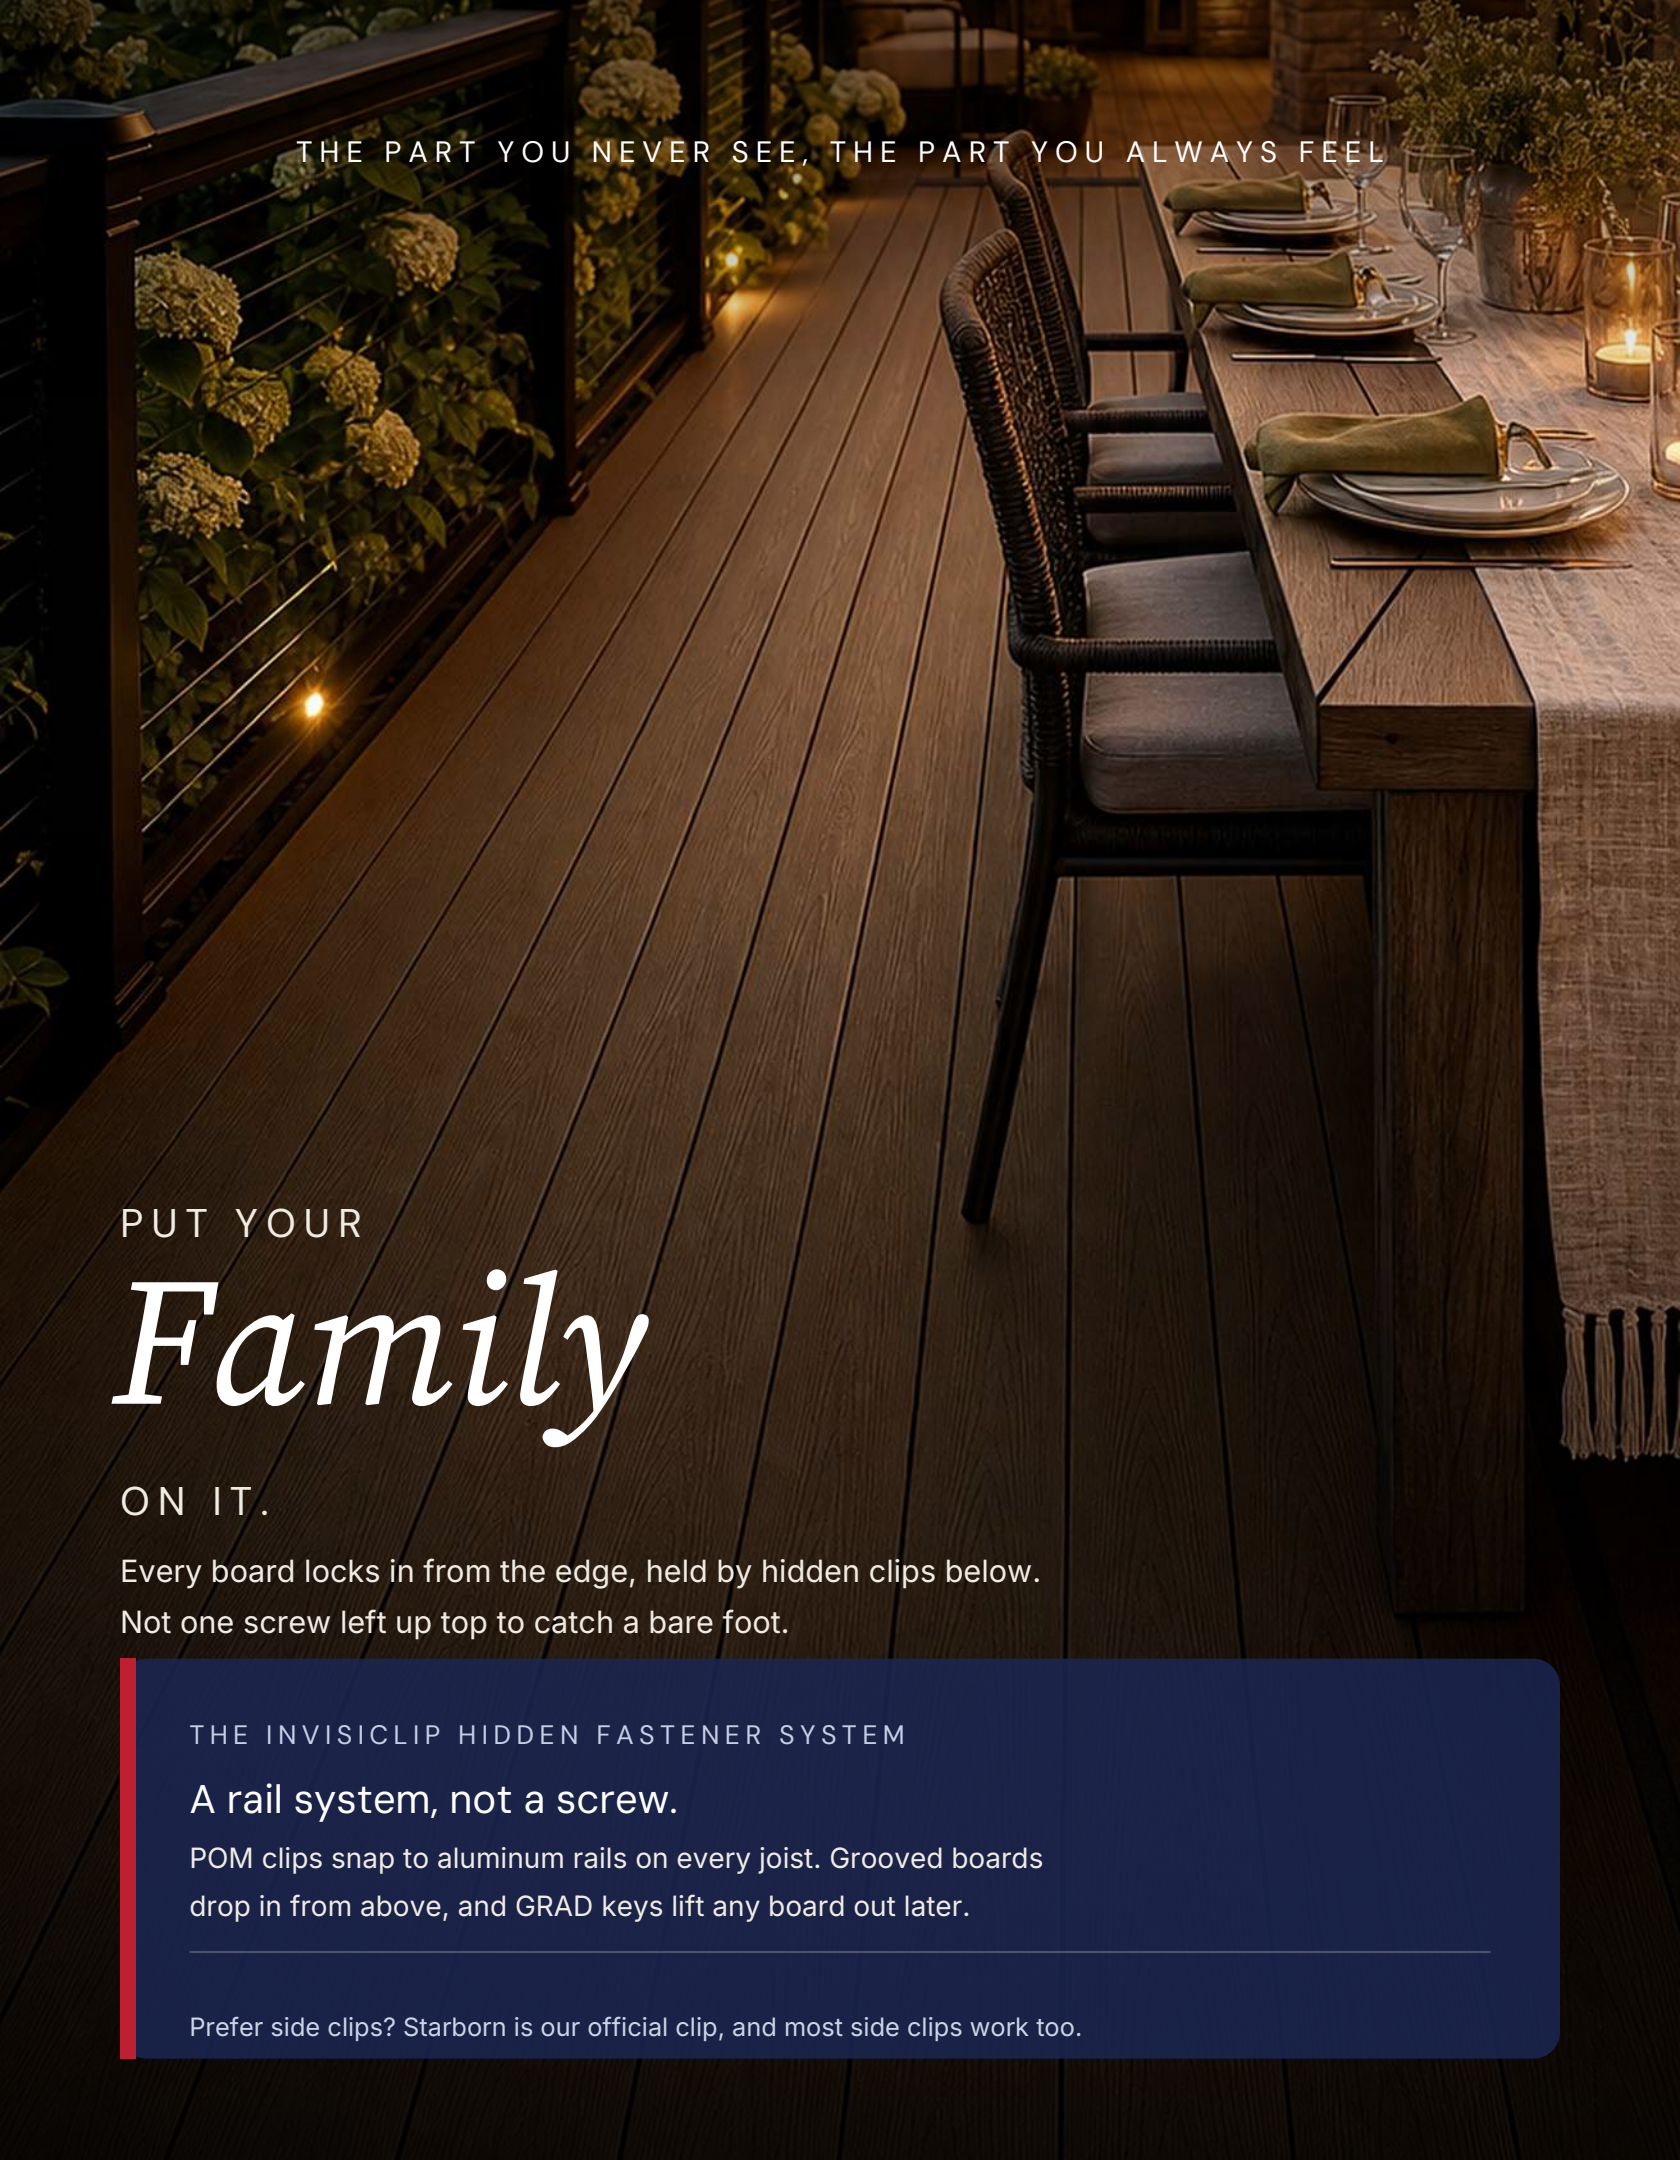

Tropical Walnut

RICH DARK WALNUT

*A rich, confident walnut with
depth you can feel. Quietly
luxurious, never loud.*

A photograph of a modern outdoor deck at night. The deck is made of dark wood planks. On the left, there is a railing with a vertical garden of white hydrangeas. In the background, a dining table is set with plates, glasses, and lit candles. The scene is warmly lit, creating a cozy atmosphere.

THE PART YOU NEVER SEE, THE PART YOU ALWAYS FEEL

PUT YOUR
Family

ON IT.

Every board locks in from the edge, held by hidden clips below.
Not one screw left up top to catch a bare foot.

THE INVISICLIP HIDDEN FASTENER SYSTEM

A rail system, not a screw.

POM clips snap to aluminum rails on every joist. Grooved boards drop in from above, and GRAD keys lift any board out later.

Prefer side clips? Starborn is our official clip, and most side clips work too.

THE TRUEGRAIN PALETTE

Six hardwood-inspired colors. One that is already yours.
